

The chart displays the duration of songs' chart runs across ten positions. The x-axis represents the week (from 1960 to 2024), and the y-axis represents the number of weeks on chart. The legend identifies the positions by color: 1 (blue), 2 (orange), 3 (green), 4 (red), 5 (purple), 6 (brown), 7 (pink), 8 (grey), 9 (olive), and 10 (cyan). The data shows that songs generally spend more time on the chart in the later years, with a notable increase in the number of songs reaching position 10 in the 2000s and 2010s.
